

# 300Mbps Wireless 4G LTE Outdoor PoE Router

Share 4G LTE Network Wherever You Want

WI-LTE117-O

Hardware Version: V2

Wi-Tek  
COMMUNICATIONS SOLUTIONS

4G LTE  
Cat.4

PoE  
Output

IP65 Weatherproof  
Enclosure

SD-LAN  
Technology

Abundant  
VPN Functions

Reliable Network  
Redundancy

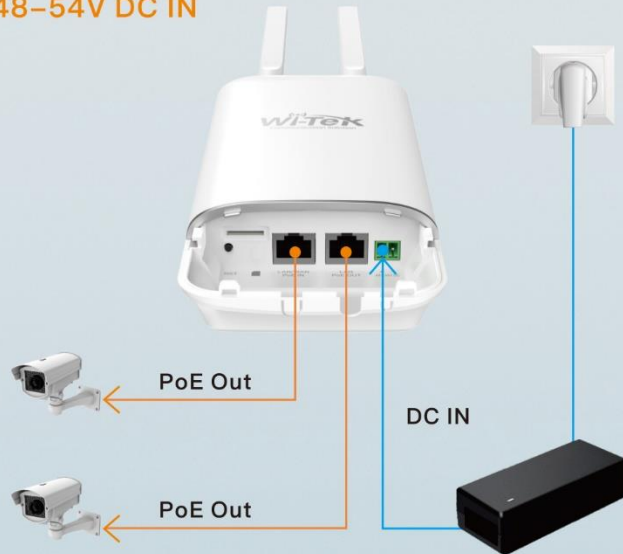

# Plug and Play, Enjoy 4G Network Sharing Everywhere

With Cat.4 technology, WI-LTE117-O can reach up to 150Mbps DL and 50Mbps UL, which allows you to share network with multiple Wi-Fi devices. Simply insert the Nano SIM Card, you can enjoy reliable network in video streaming, rapid file downloads and surveillance.

# Flexible Power Supply and PoE Output, Ideal for Surveillance Scenarios

• 48-54V DC IN

• 802.3at PoE IN

# Outdoor Design Guarantees Normal and Stable Operation

IP65  
Ingress Protection

4kV Lightning  
Protection

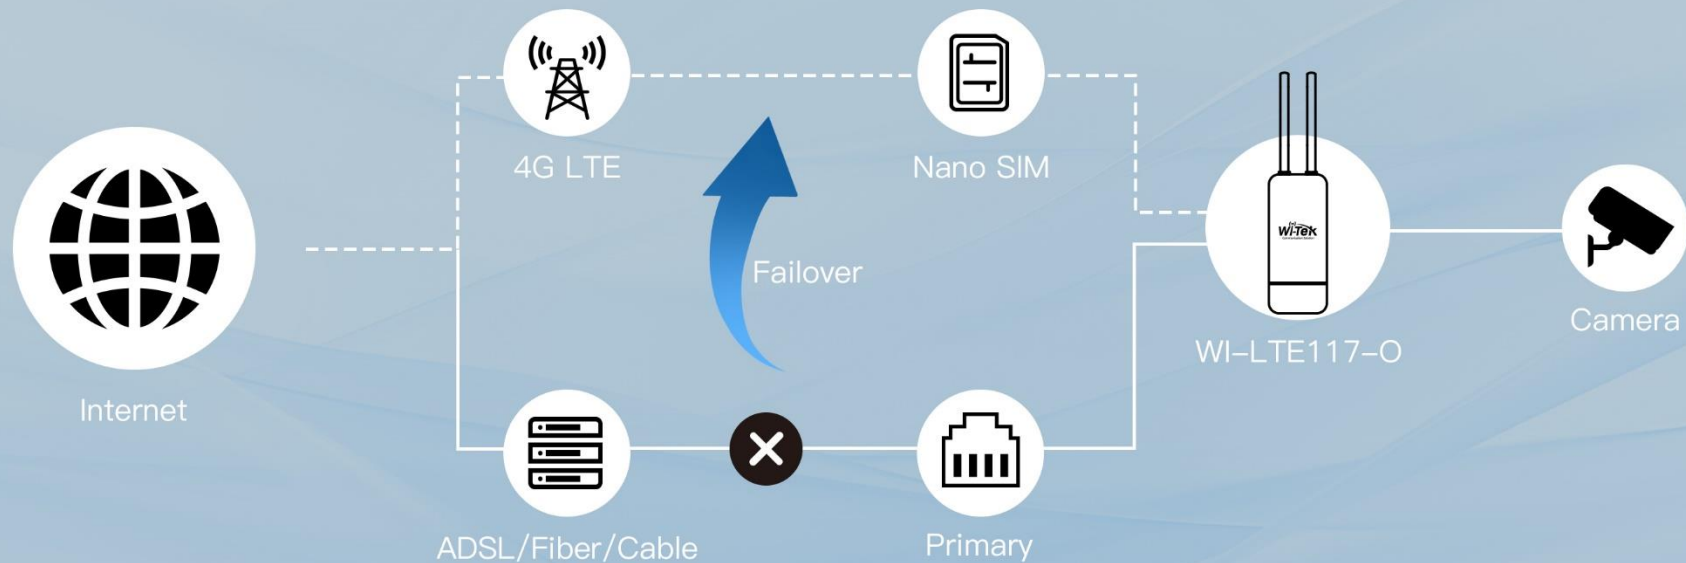

-30°C– 55°C  
Operating Temperature

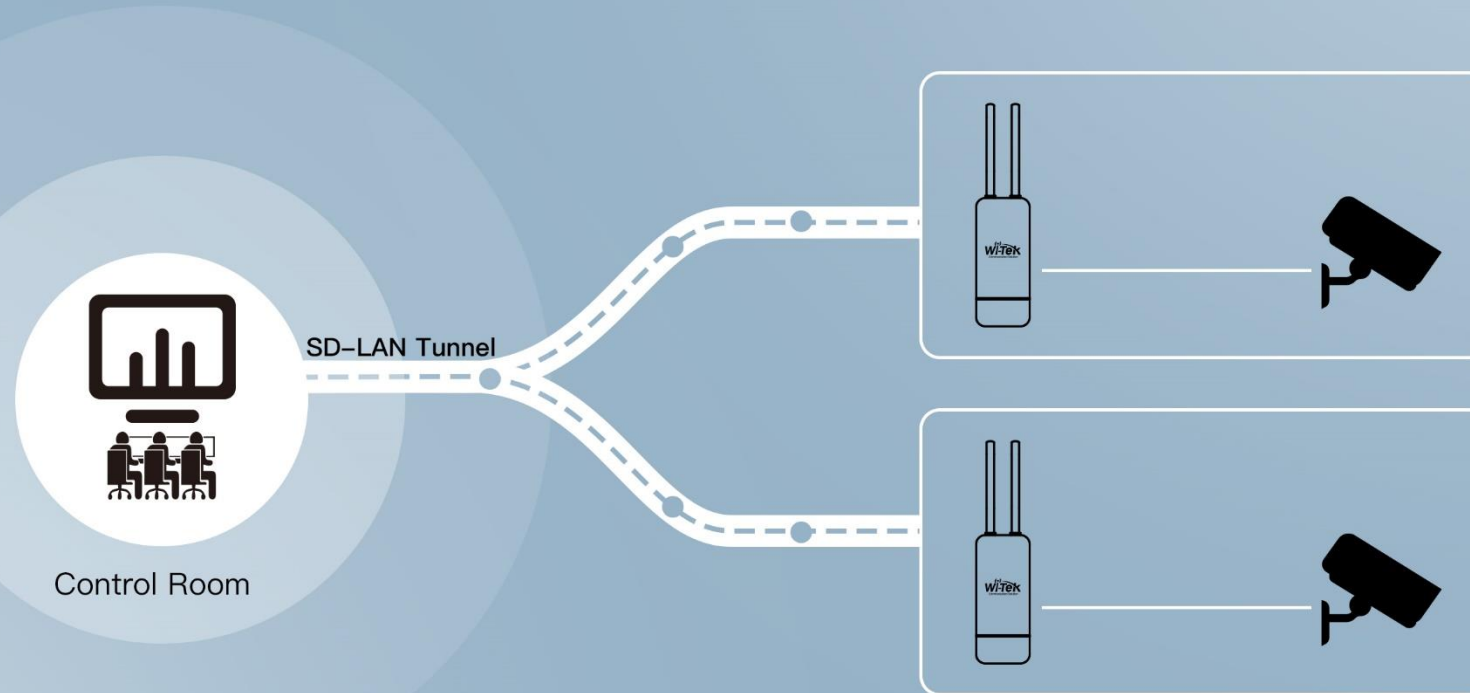

UV  
Stabilized

# Reliable Internet Failover Ensures Network Continuity

Failover delivers redundant connectivity to ensure your network will continue to work if your primary connection goes down.

# SD-LAN Makes it Easy to Manage Remote IP Camera

● Real-time Monitoring

● Remote Management

● Enhance Security on Data Transmission

Flexible and Detachable  
External Antennas, Supporting  
Replacement by Customized  
Ones via SMA Connector
